emerginC

Aromatic Cream Cleanser

The perfect cleanser for sensitive skin. This gentle and creamy cleanser will leave your skin clean while adding the moisture dry sensitive skin craves. A combination of green, red, and white teas, and other active ingredients calm skin leaving you refreshed and radiant. Pair your aromatic cream cleanser with emerginC's lavender toner for best results.

Tips and Tricks - Skin Care and Shaving tips for men

Always shave while in a hot shower or right after. This will help soften the beard.

Use glycerin based shaving cream for a close, comfortable shave.

A shaving brush helps to create a warm, rich lather, as well as helping to lift the beard away from the face.

Be aware of the direction of hair growth on your neck, as this hair grows in many different directions.

Cleanse your face after you shave to remove all residue from your shaving cream, it will also help to soothe your skin.

Always apply an alcohol free after shave and moisturizer. Apply SPF of at least 30 everyday. It is especially important for men as shaving acts as a daily exfoliant, leaving men more prone to sun damage.

Meet the Esthetician

Kristen Maresca studied esthetic skin care at the Capri Institute and received New Jersey State licensing as well as microdermabrasion certification. Additionally, she attended Healing Hands Institute where she received her National Certification in therapeutic massage. She specializes in facial skin care, microdermabrasion, body treatments, temporary hair removal, and has extensive knowledge of product ingredients.

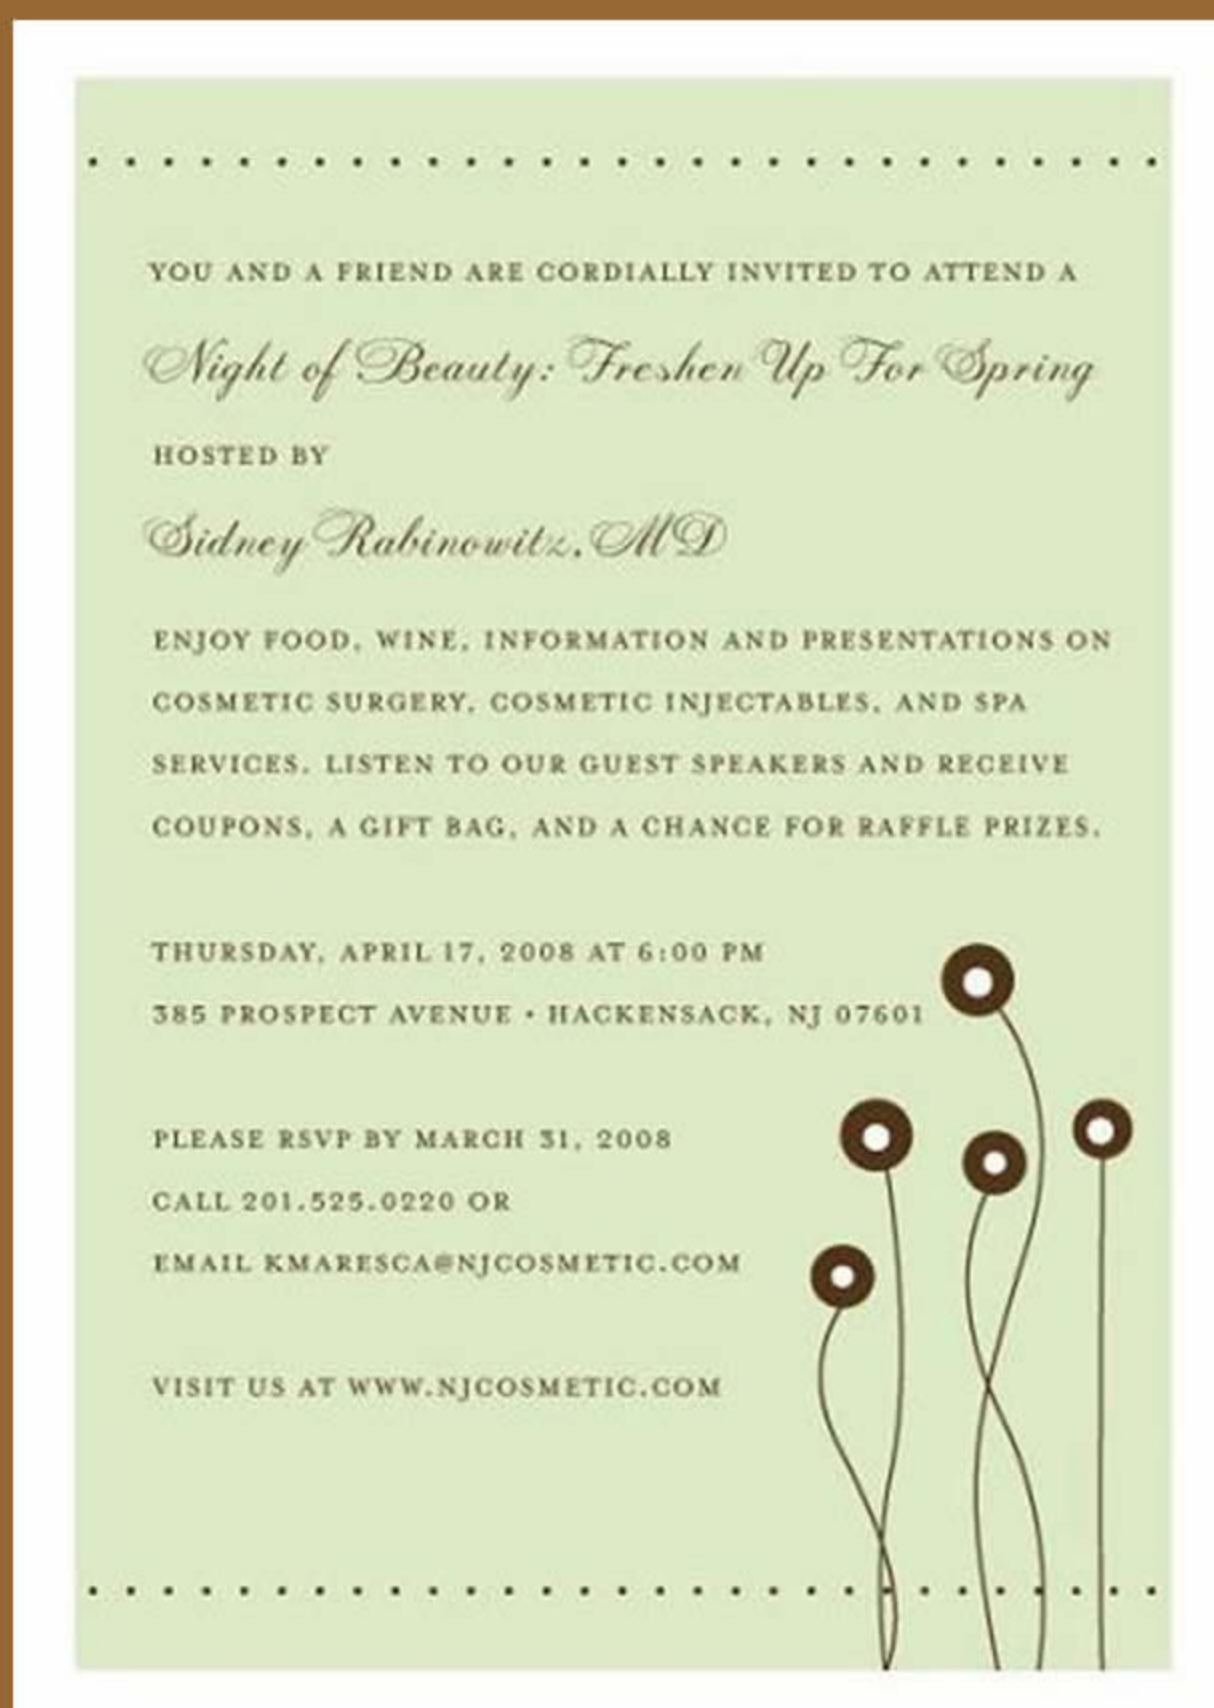

Dr. Rabinowitz sent Kristen to San Francisco where she was trained and certified to perform the Jessner peel. We are offering a 50% discount when you schedule the procedure before March 31, 2008

For a full list of procedures performed in our spa you can visit us at www.njcosmetic.com. Please feel free to contact our office 201 525-0220 to schedule your complimentary skin consultation with Kristen. She will prescribe a skin care regimen and an opportunity to relax with a customized facial.

RSVP By March 25, 2007 To Receive a Free Gift

Cosmetic Surgery Trend for 2007

According to statistics released by the American Society for Aesthetic Plastic Surgery, 11.7 million cosmetic surgical and nonsurgical procedures were performed in the United States in 2007. These statistics show an overall increase in cosmetic surgeries of 457 percent since 1997.

The Aesthetic Society reports that liposuction was the top surgical procedure in 2007 with nearly a half million performed. The top nonsurgical procedure last year was Botox with a total of 2,775,176.

Women continue to make up the majority of patients undergoing cosmetic surgery with 91 percent of the procedures being performed on females. However, in 2007, it seems that men undergoing plastic surgery has increase 17%.

While Botox was the top nonsurgical procedure among both men and women, breast augmentation was shown to be the top surgical procedure among women and liposuction the top preference for men.

To find out more information about the top procedures discussed and others cosmetic procedures please visit our website at njcosmetic.com or call 201. 525.0220 to schedule a consultation with Dr. Rabinowitz.
